Subject: Regarding delivery of indented item at ILS Bhubaneswar

I am writing to request the direct delivery of the indented item to the Institute of Life Sciences (ILS), Bhubaneswar, as it will be used for our research purposes at that location. The item is highly temperature-sensitive and requires shipment with dry ice to maintain its integrity during transit. Given the nature of the item, it would be more efficient and practical to ship it directly to the lab where my students will be utilizing it. This will ensure that the item is received in optimal condition and can be promptly used for the experiments.
